

David Fernández Rodríguez

Head of AWS | Cloud Architecture & Generative AI

Seville, Spain | English (fluent) | Spanish (native)

dfernaro.github.io | linkedin.com/in/dfernaro | github.com/dfernaro

PROFESSIONAL SUMMARY

Head of AWS with 10+ years in software engineering, cloud architecture, and technical leadership. Experience developing AWS partner capabilities and delivering production AI systems, including RAG and MCP integrations. International experience in Spain, Ireland, Germany, and Denmark, with distributed teams across Spain and Mexico and collaboration with people of 20 nationalities.

CORE EXPERTISE

Cloud: AWS, Azure, AWS CDK, Terraform, CloudFormation, Pulumi, Docker, CI/CD.

AI: Amazon Bedrock, AgentCore, RAG, MCP, LangChain, vLLM, Claude, OpenAI.

Engineering: Python, Java, TypeScript, React, microservices,DDD, clean architecture.

Leadership: AWS Partner development, technical pre-sales, mentoring, budgets and delivery.

PROFESSIONAL EXPERIENCE

Head of AWS | Plexus Tech

May 2026 - Present | Remote

- Lead the AWS practice, setting technical priorities and guiding architecture and implementation decisions.
- Drove the strategic process that secured Plexus Tech's AWS Advanced Tier Partner status in 2026, covering both technical certification and commercial billing requirements, and now lead the path towards Premier Tier.
- Lead cloud strategy and governance for 40+ AWS accounts for a business-critical enterprise client, coordinating multiple technical teams.
- Coordinate certification programmes, develop engineering capabilities, and support AWS opportunities, solution proposals, and technical pre-sales.
- Advise teams and clients on security, scalability, cost optimisation, and responsible AI adoption.

Technical Lead | Plexus Tech

2025 - May 2026 | Teams in Spain and Mexico

- Led concurrent projects involving 12-20 engineers, architects, and technical specialists; owned delivery planning, workloads, time tracking, and budgets.
- Designed AWS architectures and led cloud migrations and infrastructure automation using AWS CDK, CloudFormation, Terraform, Pulumi, and Ansible.
- Reduced monthly AWS spending by 25% without affecting application performance.
- Improved team productivity by 30% through AI adoption and process improvements; delivered a RAG solution and mentored engineers.

Senior Software Engineer | Complexio

November 2024 - May 2025 | Denmark - Remote

- Led LLM-based pattern recognition using vLLM to automate event-data processing across multiple formats.
- Improved accuracy and production latency through prompt engineering, model fine-tuning, and deployment optimisation.
- Built scalable real-time AI pipelines on Azure with Pulumi for infrastructure as code and CI/CD.

PROFESSIONAL EXPERIENCE - CONTINUED

Technical Lead / Solutions Architect / Senior Software Engineer | Spark

2022 - 2024 | Ireland

- Led AI development including a recommendation system, customer feedback analysis, and LLM/NLP chatbots using LangChain and OpenAI.
- Designed AWS serverless and data-driven solutions using Python, AWS CDK, Terraform, and CloudFormation; applied clean architecture and DDD.

Software Architect / Senior Software Engineer | 1xINTERNET

2021 - 2022 | Germany

- Promoted to Software Architect, delivering enterprise solutions for retail, healthcare, and pharmaceutical clients; led teams, code reviews, and QA.
- Managed GitLab CI/CD pipelines; training improved junior developers' coding efficiency by 25%.

Delivery Manager | Sopra Steria

2020 - 2021 | Seville, Spain

- Managed concurrent projects, delivery risks, scope, dependencies, and stakeholder expectations across internal teams and third-party contributors.

Senior Software Engineer / Data Engineer / Software Engineer | everis

2016 - 2020 | Seville, Spain

- Delivered data migration, ETL, open data, and e-health projects; led teams of two to five.
- Built Spring Boot services, REST APIs, CKAN platforms, and reusable web components; used Docker, Jenkins, and OpenShift for deployment.

Software Developer / Software Developer Intern | Freelance & public sector internship

2012 - 2016

- Built WordPress websites and Python automation; contributed to a Java-based public sector project.

CERTIFICATIONS & CREDENTIALS

10 AWS certifications: Solutions Architect - Associate; Developer - Associate; DevOps Engineer - Professional; Security - Specialty; Advanced Networking - Specialty; Data Engineer - Associate; Machine Learning Engineer - Associate; AI Practitioner; Cloud Practitioner; AI Business Strategist.

10 AWS microcredentials (Demonstrated): Serverless; MLOps; Incident Response; Application Networking; Agentic AI; Data Streaming; Data Visualization; Data Lakehouse; Databases for Agentic AI; Securing Agent Identities.

Additional credentials: Azure Fundamentals (AZ-900), Azure Data Fundamentals (DP-900), Google Cloud Associate Cloud Engineer, eJPT, and AWS Partner accreditations. Completed Anthropic Academy courses on Claude, MCP, and responsible AI.

EDUCATION

Master's in Cybersecurity | IMF Smart Education | 2021 - 2022

Master's in Computer Engineering | Universidad de Sevilla | 2017 - 2019

Bachelor's in Computer Engineering - Software Engineering | Universidad de Sevilla | 2012 - 2016

Higher Education Certificate - Computer Application Development | I.E.S. Julio Verne | 2009 - 2012

OPEN SOURCE & SPEAKING

Contribute pull requests involving AWS CDK, Amazon Bedrock AgentCore, and Amazon Bedrock modules. Invited speaker at "Try It!", Universidad Politécnica de Madrid, March 2026, on applied AI and cloud architecture.
